## DETAILS AND REQUIREMENTS

- ✓ We provide NO insurance in case of injury on the program. For insurance, participant carries his/her own personal and/or family policy in case of sickness, injury, or something requiring hospitalization.
- ✓ When participating in any of our programs, participant's passport must show a minimum of six (6) months of time before its expiry date.
- ✓ All hotel accommodations are based on two participants (roommates) per room. If you wish to have a private, single room, you must request this and pay the extra single supplement fee.
- ✓ On any of our programs, please limit yourself to the number of travel bags that you wish to bring. The airlines usually allow one (1) check-in bag and two (2) carry-on bags – one small carry-on and one personal item. Traveling in Israel must be simplified.
- ✓ Participants do not need to be in perfect physical fit health. However, each person must keep in mind that touring Israel is not easy like a walk in the park. There are some challenges such as lack of toilet facilities in some areas, the heat of summer, the difficulty of terrain at some archaeological sites. Therefore, we like to stress that before you come to tour Israel; that you prepare yourself physically for a lot of walking in various terrain conditions. Also, to consider the summer heat and to be prepared as best as you can. We suggest that before you get on your flight to Israel, that you begin two weeks before with prepping your immune system with plenty of vitamin C and other good things for the body, to keep you healthy and strong.
- ✓ Laundry services are not easily available. Thus, please consider this and prepare to wash your own clothes in the bathroom tub or sink.
- ✓ When you arrive into Ben Gurion airport, we suggest that you only exchange about \$100 USD into Israeli Shekels and for the rest of the time, use a credit or debit card for any and all of your purchases.
- ✓ During the Festival of Succot, the weather in Israel is usually still pretty warm. Jerusalem is cooler due to its elevation and Tiberius is warmer because it is below sea level. The Dead Sea region is often hot, or at least, very warm and dry. The coastal areas are still pretty warm but not too humid as in the middle of the summer months. Check weather and average temperatures before packing for your flight to Israel and pack accordingly.
- ✓ Your Tour Organizer and Guide is Avinoam Marcus. You will receive my details, by email, before leaving for Israel.
